The Power of Dynamic Partnerships

In the past, advertising at school sponsored events amounted to static, printed banners along walls, fences, and surrounding the scoreboard. This approach quickly cluttered campuses and stagnated to the point where audiences became numb to messages and the brands being showcased. Not any more. ScoreVision provides dynamic digital advertising opportunities that take the fan experience to new levels.

SHARE RELEVANT & TIMELY MESSAGING WITH YOUR AUDIENCE

ScoreVision employs the latest technology which allows community partners the ability to deliver succinct, real-time messaging to audiences near and far. ScoreVision allows you to tailor your message and brand, reaching WHO you want WHEN you want. Partners are no longer held down by a banner that remains stagnant all season long—you can swap your design/messaging as the seasons and offerings of your business change.

DELIVER ANIMATED OR TV-COMMERCIAL-STYLE ADS

ScoreVision technology allows community partners to leverage the full power of dynamic digital media across multiple mediums. From animated video to television-commercial-style advertisements, the ScoreVision platform allows you to be as creative as you want to be.
